

# Getting started

To navigate the site smoothly, here is some information that will improve your user experience.

## General organization

- This site reflects in its organization the menu structure of the tools. Thus, when you are on any page, the page path and the breadcrumb (see below) tell you how to access the screens indicated in the documentation.
- We have tried to illustrate the documentation with as many screenshots as possible. Many of these images can be clicked for more details.
- This site is suitable for mobile display, so we keep the page width small. You can also put the documentation and your Vigilens tool side by side on your PC screen.

## Table of Contents

Table of Contents

- Documentation
  - Vigilens Tools Suite
  - Quick Start
  - HowTo
- Version History
- Application Vigilens Designer in a few words

On each page of this site, you can display the table of contents by clicking on the button of the same name. You can then navigate directly to the desired section.

## Breadcrumb

» Welcome » Vigilens V8.0.0 » Admintool » Menus » Management Menu » Management menu > Group

It lets you know where you stand in the site tree at all times. You can click one of these elements to go directly to it.

## Toolbar

On the left side of your browser is a toolbar. You can enlarge it or open it using the buttons  or  at the top left.

## Keywords

Wherever you are on the site, you can search by keyword in the current directory and all subdirectories. The search results will provide you with direct links to :

- the pages that have the keyword in their name
- the pages that have the keyword in their text

## Search

You can find the results of your search below. If you didn't find what you were looking for, refine your query.

consultation

## Last Visited Pages

To quickly find the pages you have just consulted.

The screenshot shows a sidebar titled 'Last Visited Pages' with a blue header. The content area is a light grey box containing a list of visited pages, each preceded by a small blue square icon. The list includes: Welcome, Welcome, Prise en main, Validation des pages, Page du projet de Wiki de documentation, Managent menu > Group, Management Menu, Admintool, Menus, and Getting started.

## Page Tools

On the right side of the window is another toolbar, dedicated to the current page.

### Printing in PDF

This icon will allow you to export the page as a pdf file.

### Backlinks

To see which pages are pointing to where you are.

## Mobile Version

This site is suitable for most mobile terminals. Ergonomics is very close to the PC version, except that the Page Tools and Site Tools are accessible through a drop-down list.

The screenshot shows a mobile web interface for 'Vigilens Reporting Knowledge Garden'. At the top, there is a user profile icon for 'sylvainAir (sylvainair)' and the site's name. A red box highlights the top of a dropdown menu. The menu is organized into sections: **Outils de la page** (Page Tools), **Outils du site** (Site Tools), and **Outils pour utilisateurs** (User Tools). The **Outils de la page** section contains links for modifying the page, viewing previous revisions, exporting to PDF, renaming the page, and viewing return links. The **Outils du site** section contains links for recent changes, a multimedia library, and the site map. The **Outils pour utilisateurs** section contains links for updating the profile, administering the site, and logging out. At the bottom of the menu, a note in French encourages users to consult a dedicated page for ergonomics tips.

Pour rapidement prendre en main l'ergonomie de ce site, consulter notre page dédiée.
