## Scheduled Run

This menu allows you to specify the users authorized to schedule a report run. [See scheduling dedicated page.](#)

- The top part allows you to enter the default user.
- The button Check Login tests that the combination user / password is correct.

- The bottom part allows you to enter the other authorized users.
  - The    buttons allow you to respectively add, modify or delete one of the Other Users.
  - The button Check Login tests that the combination user / password is correct.

## Licence

Manage and review your licence informations.

## Summary

Viewing the contents of the license files "LicenseGen.evs" and "LicenseGen.dat".

## VIGILENS Designer and VIGILENS Viewer license management

### Vigilens Designer

*1 Designer license = 1 connection to Vigilens Designer*

If all Designer licenses are used then Vigilens offers you a connection in Viewer and in this case *1 Viewer license = 1 connection to Vigilens Designer*.

### Vigilens AdminTool

1 connection at a time without license consumption

### Vigilens AdminTool

if connection via Vigilens Web then

*1 viewer license = 1 Vigilens User / 1 Browser*

If connection via "command line" (example, JDE menu) then

*1 viewer license = 1 call*

In case of unclean disconnection (machine crash, browser bug etc...) the Vigilens Viewer license will be automatically released after X min (the value of X is configurable in the WebConfig tools).

The use of Vigilens Web in JDE's EonePage and CafeOne is not yet validated.

## Receive/update global license file

A dialog box specifying the key corresponding to your global license is displayed. Enter the UNC path corresponding to your shared directory and send this information to the following address **support@vigilens.net**.

You can use the button `Send a mail...` if a mail client is installed on the computer or if the information corresponding to the mail settings ([see mail setup](#) ).

Otherwise you can copy the key by copy/paste to avoid typing errors.

You will receive in return the files “LicenseGen.evsn” and “LicenseGen.dat” that you will have to put in the shared directory.

## Edit

Classical edit menu

## Display

- Group Window
- User Window
- Status Bar

Display

Check boxes allow you to hide/show panels or status bar.
