Licence

Manage and review your licence informations.

Vigilens Designer

1 Designer license = 1 connection to Vigilens Designer

If all Designer licenses are used then Vigilens offers you a connection in Viewer and in this case 1 Viewer license = 1 connection to Vigilens Designer.

Vigilens AdminTool

1 connection at a time without license consumption

Vigilens AdminTool

if connection via Vigilens Web then 1 viewer license = 1 Vigilens User / 1 Browser

If connection via "command line" (example, JDE menu) then 1 viewer license = 1 call

In case of unclean disconnection (machine crash, browser bug etc...) the Vigilens Viewer license will be automatically released after X min (the value of X is configurable in the WebConfig tools).

The use of Vigilens Web in JDE's EonePage and CafeOne is not yet validated.

Summary

Viewing the contents of the license files "LicenseGen.evs" and "LicenseGen.dat".
