

Management Menu

There are two levels of settings:

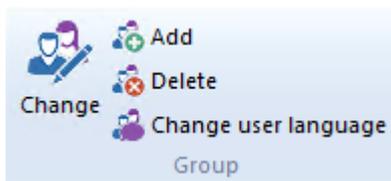

- At the user level
- At the level of the group to which it belongs

The possible settings are :

- Restrictions on certain actions
- Time out
- Restrictions on access to data
- Directory management (personal and shared)

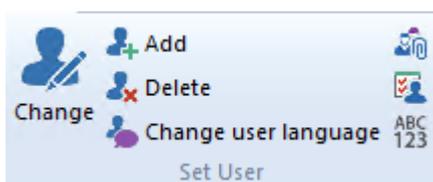

Group

Managing groups and their properties

Set User

Management of users and their properties

Global

The Change User Working Directory menu allows you to change/replace all or part of the working directory of several users. This menu is only accessible if several users are selected in the user management window.

Password change is the same than in [AdminTool menu](#)
