For a section

In the properties of a section, in addition to the classic Position/Size, Border and Background color tabs, there is the Section tab, which allows you to manage page breaks and titles display.

Allowed options depend on the section type.

for Body section:

Properties	x
Section Position / Size Border Background color	L
Title display	
Never Once a page If there is no other title printed on this page	
After each level break For each data line	
	г
OK	

for Level break header:

Properties	x
Level break Position / Size Border Background color	
Page break	L
Before sections related to level break	
After sections related to level break	
	г
OK	

Inserts

🚆 Sub-section		
Inserts		

Text

Aa Text Allows the addition of a static label on the report.

This type of object has the same properties as a field, except that the label is typed while fields are chosen in a list.

Text	Position / Size	Border	Backgrou
Vigi	lens is so cool		

Picture

Allows you to add an image. This image can either be left on the server or incorporated into the report. In the properties of a sub-section, in addition to the classic Position/Size, Border and Background tabs, there is a Picture tab, which gives access to the specific properties of this type of object.

Properties	x
Picture Position / Size Border Background color Select a picture Save picture with report	L
✓ Keep height / width ratio for display	
OK Cancel	г

Sub-section

🚪 Sub-section

At the time of report construction, it is possible to add a sub-section with data from another report.

After clicking the Subsection button, a location on the report design must be selected. Vigilens then asks which query should be called.

V.	Select a query	x
AUTO_EXE_1J AUTO_EXE_1J DDMRP EQUIPE FORMATION7 MONITOR NOUVEAUTES 7X Plateforme Demo Extract4DDMRP SECURITE JDE V test V toto Shared queries		5
OK	Cancel	

In the properties of a sub-section, in addition to the classic Position/Size, Border and Background color tabs, there is the Link to Another Query tab. It allows you to change the query called by the sub-section and to specify the values of the parameters when calling this subquery.

	Properties
Position / Size Borde	r Background color Link to another query

Fo	OK Cancel

Cumulative field

fx Cumulative field

After clicking the Cumulate button, select a location on the report design.

In the properties of a sub-section, in addition to the classic Position/Size, Border and Background color tabs, there is the Cumulative field tab that allows you to specify the field that will be the object of the cumulation, as well as the break conditions that resets total amount to zero.

Properties	x
Cumulative field Position / Size Border Background color	
Calculation column	-
Fiscal Year N	
Reset	
Reset column	
CCNAME (F0010)	
✓ Display as percentage Format	
Г	Г
OK	

Graphics

After clicking on the Graphics button, you have to choose a field of the report and then a data type.

Choice of graphic's type	x
Histogramm Diagramm 3D	
Diagram Lines and sector points	
OK Cancel	

A diagram symbolizes the location of the graph on the report.

In the properties of a Graphic, in addition to the classic Position/Size, Border and Background color tabs, there are two additional tabs : Data Parameters and Drawing parameters.

	Prop	oerties	X

Sections

Display as table

A section can be structured either as a table or as a free layout. In free layout, fields and labels can be freely arranged. In table mode, the data will be displayed as a table in columns with headers.

Free layout:

Display as table:

Body				
ABAN8	ABALPH			
7778	Xx Xxxx			

Copy from main body

	#TODO			
\bigcirc				

Properties

Reporties

Even if the object selected is not a section, this button will open properties window of the section it belongs to.
