

SQL Entry

Usage

This type of query, **available only for SELECT**, allows you to enter directly in SQL code the selection of data

Difference from inquiry

SQL Input

This screen provides a text field for entering the query.

You just have to make a "SELECT *" since a [field selection screen](#) is available

Création d'une nouvelle requête

Requête SQL à exécuter
SELECT * FROM F0911

< Back Next > Cancel

Screens saved

Few screens are kept compared to the [inquiry](#) :

- [Field selection screen](#)
- [The playback screen](#)
- [Finalization and test screen](#)
