

Personalization Menu

Parameterization

Database

This screen is the same as [AdminTool](#), except that it has an Import button while the [AdminTool](#) has a Share button.

When you click on the Import button, a dialog box asks which data source must be imported.

. It is possible to secure this part. See [Restrictions](#)

Help Box

Global

The number of result files is the blue number in brackets in the [query panel](#).

Color

Set User

The user language is configured on this screen, among other things.

Information window

This is where you can customize the panel [Overview](#).

The screenshot shows the Vigilens Designer application. The top menu bar includes 'VIGILENS DESIGNER', 'Accueil', 'Personnalisation', and 'Requête'. Below the menu is a toolbar with icons for 'Imprimer', 'Historique', 'Fichiers incorporés', 'Copier', 'Coller', 'Couper', 'Executer', 'Ouvrir', 'Renommer', 'Publier', 'Requêtes liées', 'Fichiers de résultats', and 'Supprimer'. The main workspace is split into three panes. The left pane shows a tree view of project files, with 'Commande - Détail (3)' selected under the 'SYLVAIN' folder. The bottom-left pane shows a list of 'Modèles de requêtes' including 'PACK FINANCE JDEWARDS' and various '00_Consultation' templates. The right pane displays the configuration for the 'Commande - Détail' report, including its source, timeout, creation/modification dates, and specific settings for tables, joins, fields, sorting, and breaks.
