

# Personalization Menu

## Parameterization

### Database

This screen is the same as [AdminTool](#), except that it has an **Import** button while the [AdminTool](#) has a **Share** button.

When you click on the **Import** button, a dialog box asks which data source must be imported.

. It is possible to secure this part. See [Restrictions](#)

### Help Box

### Global

The number of result files is the blue number in brackets in the [query panel](#).

### Color

### Set User

The user language is configured on this screen, among other things.

# Information panel

This is where you can customize the panel [Overview](#).

The screenshot shows the Vigilens Designer application. The top menu bar includes 'VIGILENS DESIGNER', 'Accueil', 'Personnalisation', and 'Requête'. Below the menu is a toolbar with icons for 'Imprimer', 'Historique', 'Fichiers incorporés', 'Copier', 'Executer', 'Ouvrir', 'Renommer', 'Requêtes liées', 'Coller', 'Supprimer', 'Fichiers de résultats', and 'Couper'. The main interface is divided into three panes. The left pane shows a tree view of request models, with 'Commande - Détail (3)' selected. The bottom-left pane shows a list of request models under 'Modèles de requêtes'. The right pane displays the configuration for the selected request, including its name, source, time out, creation and modification dates, and lists for tables used, joins, fields to visualize, sort criteria, and breaks.
