2025/11/03 00:26 1/1 Home > Import Menu

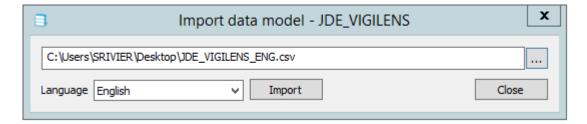

Home > Import Menu

• When importing, the first screen asks for an environment. It is from this environment that the structures of the objects will be read.

Descriptions are common to all environments.

• The next screen asks for the .csv file to import, as well as the target language.

• Once the Import button is clicked, DMManage offers to save the current configuration.
