# DMManage

Introduction

DMManage allows you to manipulate the descriptions and labels of tables, table fields, and data dictionary items. These texts can be localized.

Connexion

DMManage can be run:

- by windows menu by searching explicitely string DMManage
- by .exe : <VigilensInstallationFolder>\DMManage.exe

The connection is made with a user name defined by the AdminTool management menu, and this user and his group must have appropriate rights (see Access to applications).

Menus

Except for export, the menu action buttons apply to the data source selected in the lower panel.

DMManage menu

Import/export functions, identical to the Home menu.

Home Menu

Export Data Model

Export all or part of the descriptions. Detailed page

Import Data Model

 Import descriptions. Detailed page

2026/05/26 08:473/3DMManage
