

LogManage

Description

Management of active connections. This tool makes it easy to view active connections and to delete them if necessary.

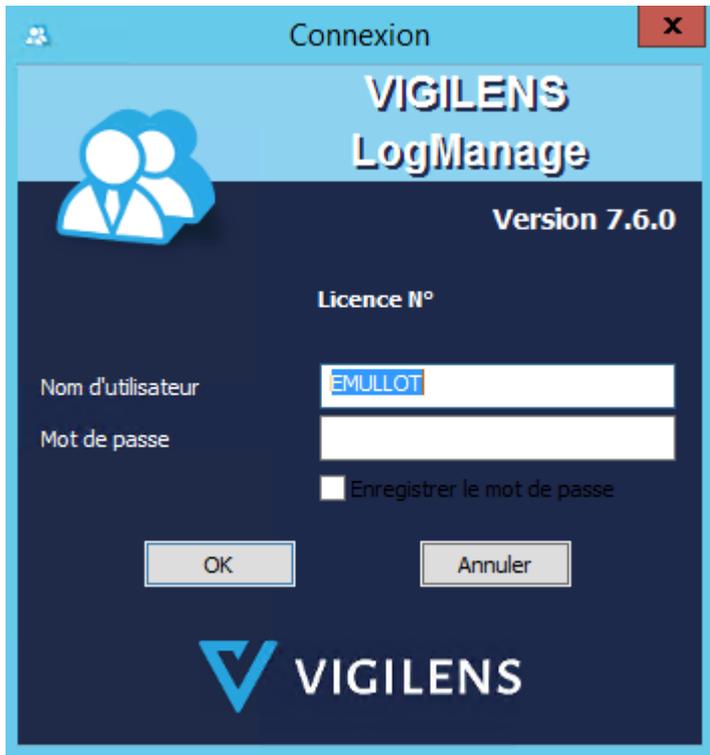

Connection

LogManage can be started:

- through the windows menu by explicitly searching for LogManage
- by its .exe : <Vigilens install folder>\LogManage.exe

The connection is made with a user name defined by [the AdminTool management menu](#), and this user and his group must have appropriate rights ([see Access to applications](#)).
