

# OPManage

## Presentation

OPManage allows to :

- visualize the SQL code used by the standard Vigilens operations ( sums, si condition, conversions, etc...).
- add new operations.

The screenshot shows the OPManage application window. The menu bar includes 'OPMANAGE' (selected), 'Home', 'File', 'Edit', 'Operations', and 'Display'. Under 'Display', the 'Standard operations' checkbox is checked. The main pane displays a table of standard operations:

Operation type	Name	Return	Valid DB	N
Convert function	IfThen	Same...	Access, DB2/400, DB2/Windows, ...	4
Convert function	IfThen<	Same...	Access, DB2/400, DB2/Windows, ...	4
Convert function	IfThen<=	Same...	Access, DB2/400, DB2/Windows, ...	4
Convert function	IfThen<=	Same...	Access, DB2/400, DB2/Windows, ...	5
Convert function	IfThen<>	Same...	Access, DB2/400, DB2/Windows, ...	5
Convert function	IfThen>	Same...	Access, DB2/400, DB2/Windows, ...	4
Convert function	IfThen>=	Same...	Access, DB2/400, DB2/Windows, ...	4
Convert function	IfThenDiff	Same...	Access, DB2/400, DB2/Windows, ...	4
Convert function	IfThenIsNull	Same...	Access, DB2/400, DB2/Windows, ...	3
Convert function	JDEConversionUOM	Number	Oracle (>= V9)	6
Convert function	NumToString	String	Access, DB2/400, DB2/Windows, ...	1
Convert function	ReplaceNull	Same...	Access, DB2/400, DB2/Windows, ...	2
Convert function	StringToNum	Number	Access, DB2/400, DB2/Windows, ...	1
Date function	AddDays	Date	Access, DB2/400, DB2/Windows, ...	2
Date function	AddMonths	Date	Access, DB2/400, DB2/Windows	2

The operation list, in the bottom panel of the window, displays in blue the standard operations. A checkbox in the menu Home > Display allows you to view only the additional operations.

Standard operations can neither be modified nor deleted.

## Connection

OPManage can be launched

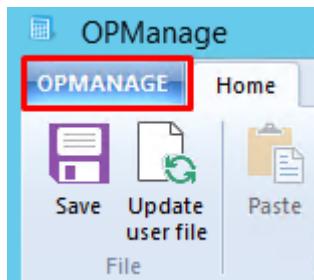

- through the windows menu by explicitly looking for OPManage
- by its .exe: <Vigilens install folder>\OPManage.exe

The connection is made with a user name defined by [the AdminTool management menu](#), and this user and his group must have appropriate rights ([see Access to applications](#)).

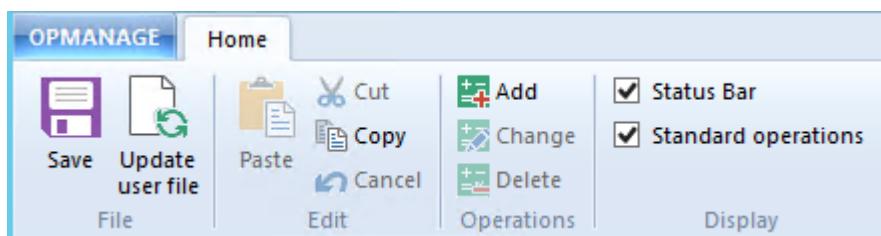

## Menus

### OPManage Menu

Save/update user file functions, identical to the Home menu.

### Home Menu

### Save

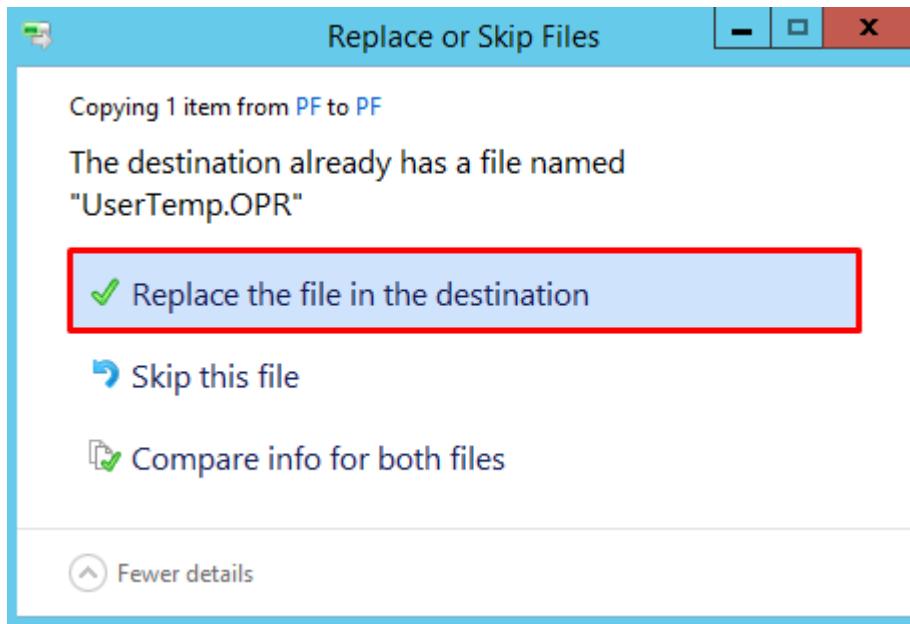

**Save** Records locally changes to operations.

## Update user file

Clicking on this button publishes the modifications to the common Vigilens repository from the local model.

A screen then asks for confirmation to overwrite the current :

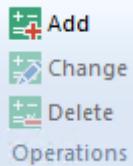

## Editing

Classic copy/cut/paste/cancel functions

## Operation

## Function definition - Detail page
