

Running Queries

There are several steps to run a query:

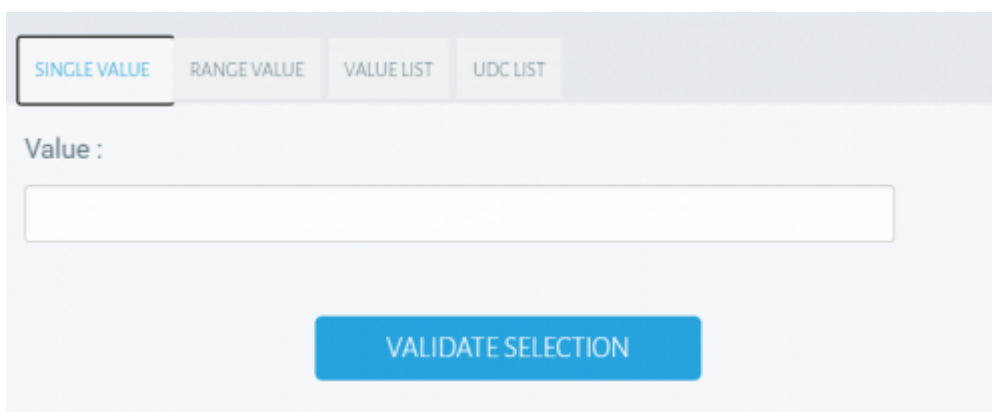

- Data selection.
- Format selection.
- Running and processing the result.

Data selection

After selecting the desired query, the user selects the data by clicking on the drop-down list. The selection can be made in several ways depending on the query to be launched (Single Value-Range Value-Value List-UDC List).

Single Value

Single value returns the result corresponding to the **single value** search.

The screenshot shows a user interface for selecting query data. At the top, there are four tabs: 'SINGLE VALUE' (which is highlighted with a blue border and text), 'RANGE VALUE', 'VALUE LIST', and 'UDC LIST'. Below the tabs, the text 'Value :' is followed by a large, empty white input field. At the bottom center of the interface is a blue button with the text 'VALIDATE SELECTION' in white capital letters.

Range Value

Range value allows you to select a defined data range between the lowest and highest value (Lower value / Upper value).

The screenshot shows a configuration interface with four tabs: 'SINGLE VALUE', 'RANGE VALUE', 'VALUE LIST', and 'UDC LIST'. The 'RANGE VALUE' tab is selected and highlighted with a blue border. Below the tabs, there are two input fields: 'Lower value :' and 'Upper value :', both of which are currently empty. At the bottom center of the interface is a blue button labeled 'VALIDATE SELECTION'.

Value List

Value list allows the user to create his list of values, to do this simply enter the value to be added in the "Value to add" field and click on the + on the right of the field.

The screenshot shows the same configuration interface but with the 'VALUE LIST' tab selected and highlighted. Below the tabs, there is a 'Value to add :' field containing the number '220'. To the right of this field is a small '+' icon, which is pointed to by a red arrow. Below the 'Value to add' field is a 'Values :' list box containing the number '220'. At the bottom center is a blue button labeled 'VALIDATE SELECTION'.

The screenshot shows a software interface with four tabs: 'SINGLE VALUE', 'RANCE VALUE', 'VALUE LIST', and 'UDC LIST'. The 'VALUE LIST' tab is active. Below the tabs, there is a section labeled 'Value to add :'. Inside this section is a text input field containing the number '305' and a '+' icon to its right. Below the input field is a section labeled 'Values :'. This section contains a list box with three items: '220', '224', and '305'. At the bottom of the interface is a blue button labeled 'VALIDATE SELECTION'.

UDC List

UDC list displays the list of values available for the query. The user can select one or more values according to his needs. It is also possible to search for a specific value using the search bar. The search is flexible, it is not case sensitive.

The UDC List is only available for JDE databases and on Item, Customer, Cost Center, Company, and fields controlled by a UDC table.

<input type="checkbox"/>	100104	Bike Rack - Trunk Mount
<input type="checkbox"/>	100105	Bike Rack - Trunk Mount

Format selection

The user can select the output format for his query.

List of formats:

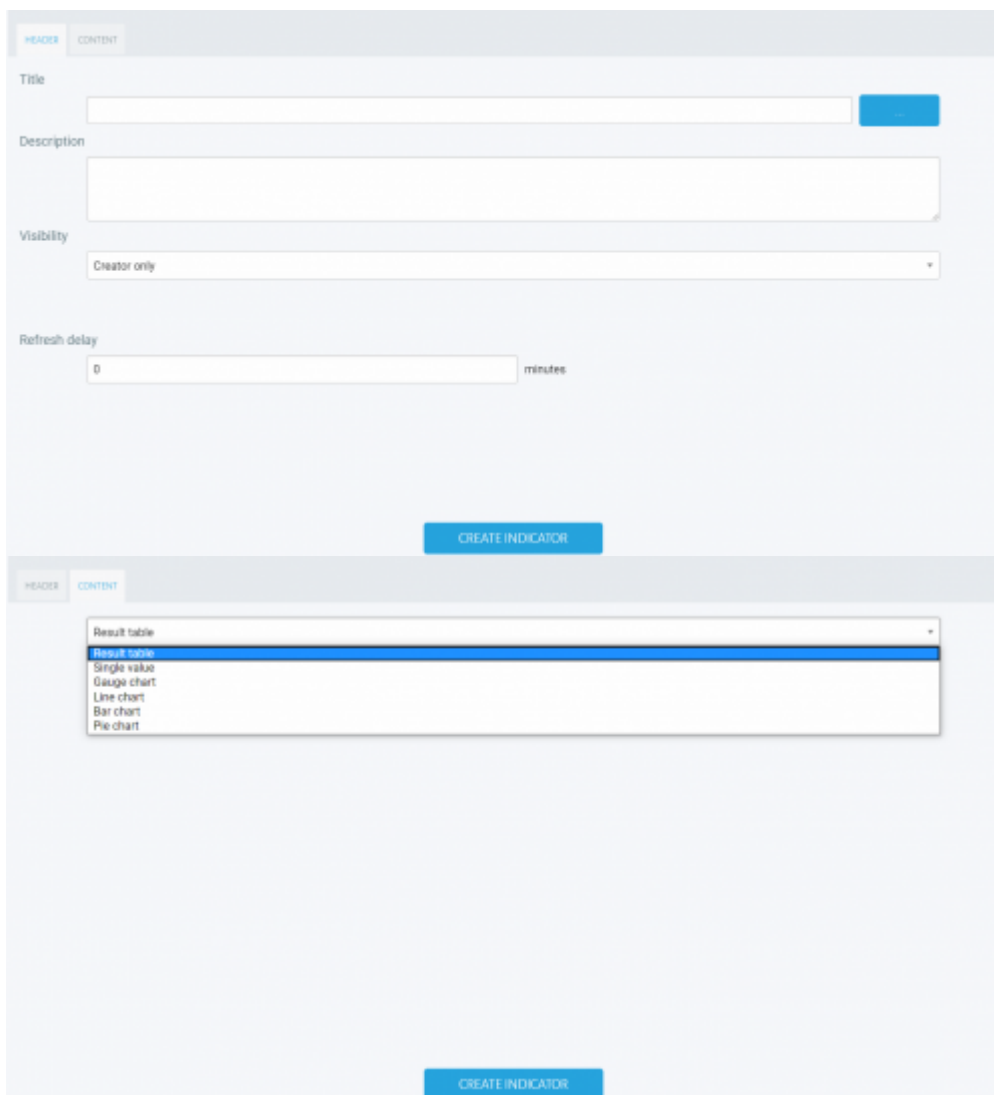

- Grid
- Excel

- PDF
- Text
- E-Mail
- Homepage Indicator

The **Homepage Indicator** format allows you to create an indicator with the result of the query. Its creation is simple, just select Homepage Indicator as the format and execute the query.

The user will fill in the tab HEADER, the title, description, level of visibility, and the refresh time. The parameters of the tab CONTENT will be displayed according to the type of result desired.

Running and processing the result

The query is launched by clicking on Execute query. Unlike other formats, **Grid** allows you to choose filters and perform actions on the result.

In **Grid** Format, the display of the name and description of the columns can be modified.

Year	Business Unit	Business Unit - IDESCR	G/L	G/L - IDESCR	MONTH	AMOUNT M	AMOUNT M-1	Qty M	Qty M-1	VARIANCE M M-1	COUNT	DESCRIPTION	
2017	20	Northern Distribution Center	IN30	Manufactured Finished Goods	6	201 814	596	10 120	64	200 718			
2017	20	Northern Distribution Center	IN30	Manufactured Finished Goods	4	7 710	2 758	820	240	4 952			
2017	20	Northern Distribution Center	IN30	Manufactured Finished Goods	5	896	7 710	64	820	-7 134			
2017	20	Northern Distribution Center	IN30	Manufactured Finished Goods	2	2 298	2 684	220	280	-389			
2017	20	Northern Distribution Center	IN30	Manufactured Finished Goods	3	2 758	2 295	240	220	463			
2017	20	Northern Distribution Center										5	20

Also, the Actions section above the grid is the access point for additional changes.

- **Quick filtering:** allows a non-case sensitive search and search on all the columns returned.
- **Filter:** Allows filtering by Field/Operator/Value.
- **Only display level breaks**
- **Automatic line break:** Automatic column width adjustment.
- **Dynamic charts:** see below.
- **Export:** Exports data in formats (excel, text, or homepage indicator).
