

Vigilens Web

Presentation

Vigilens web is a simple interface that allows the user to run queries and display or extract results in the desired format. The user can also organize his own page according to his needs by using widgets.

Home Page

Connection

Access with the url `http://<webserver vigilens>/vigilens`

The connection is made with a user name defined by management menu, and this user and his group must have appropriate rights see Access to applications.

Menus
